Introducing a better way to defeat crime.
Flock Safety built the first public safety operating system that helps neighborhoods, businesses, and law enforcement in 1200+ cities work together to eliminate crime, protect privacy, and mitigate bias. Pair devices that capture objective evidence and machine learning to create and deliver unbiased investigative leads to law enforcement. Our proprietary devices and cloud-based software reduce crime by +70%.

How to stop crime
"Flock Safety is helping us prevent crime, and when a crime does occur, we can solve it."
–Chief Kirk Riggs, Jersey Village, TX

Searching

Three ways to search for a vehicle within the FLOCK platform

1. Searching using only vehicle descriptions.
2. Searching when you have a plate.
3. Searching when you have a partial plate.
4. Make, model, color
5. Bike rack or trailer

Santa Maria Police Policy 428

Automated License Plate Readers (ALPR's)

Policy has been pushed out via Lexipol. It is your responsibility to review and acknowledge it.

428.3 OPERATIONS

a. An ALPR shall only be used for official law enforcement business.

b. An ALPR may be used in conjunction with any routine patrol operation or criminal investigation.
Reasonable suspicion or probable cause is not required before using an ALPR.

c. No member of this department shall operate ALPR equipment or access ALPR data without first completing department-approved training.

d. No ALPR operator may access department, state or federal data unless otherwise authorized to do so.

e. If practicable, the officer should verify an ALPR response before taking enforcement action that is based solely on an ALPR alert. Verification should consist of both of the following:

1. A visual comparison of the digital image of the captured license plate to the reported ALPR response
2. to ensure the alphanumeric were captured accurately.

When applicable, confirmation through the California Law Enforcement Telecommunications System (CLETS) that the vehicle is still wanted.
